

Review your agile maturity to define your
key areas of improvement

Maturity Checklist

Maturity Checklist

Agile Vision

- We have a clear idea of what agility means to us
- We have defined which problems agility should solve
- We understand the principles of the Agile Manifesto
- We have a defined vision of our product

Check the chapter on Agile Vision if you don't agree with all statements

Agile Values

- We know which values guide us
- We discussed our core values
- We have adopted measures to strengthen our values

Check the chapter on Agile Values if you don't agree with all statements

Maturity Checklist

Scrum Setup

- We defined the duration of an iteration
- The Scrum events take place
- We have a clear purpose for each event
- We find each event meaningful

Check the chapter on Scrum Setup if you don't agree with all statements

Kanban

- We know and understand the Kanban principles
- We can clearly see what we are working on
- The configuration of our board helps us to improve the flow
- We reflect regularly to continuously improve

Check the chapter on Kanban if you don't agree with all statements

Maturity Checklist

Roles

- We have all the necessary competencies in the team
- We have written down our roles and responsibilities
- We have clearly defined roles without overlapping tasks
- We know exactly who makes which decisions

Check the chapter on Roles if you don't agree with all statements

Stakeholders

- We know who is part of the team and who is a stakeholder
- We reflected on the importance of each stakeholder
- We have defined how we want to communicate with the stakeholder

Check the chapter on Stakeholders if you don't agree with all statements

Maturity Checklist

Roadmap

- We have a roadmap to guide the upcoming months
- The Product Backlog is our single source of truth
- We understand the difference between an agile forecast and project planning

Check the chapter on Roadmap if you don't agree with all statements

Issue Breakdown

- Our backlog items can be completed in 1-3 days
- Our backlog items are clearly specified
- We have a defined DoR and DoD

Check the chapter on Issue Breakdown if you don't agree with all statements

Maturity Checklist

Estimation

- We talked about what estimation we use e.g. story points
- We understand the difference between estimation in hours and story points
- We have a clear estimation process

Check the chapter on Estimation if you don't agree with all statements
